

# FLUSH, LUBRICATE AND REPAIR A/C SYSTEMS WITH CONFIDENCE

## A/C FLUSH MACHINE WITH DUAL-TANK AND SOUNDSILENCE™ TECHNOLOGY

**Performs Ford's 15-minute Flush, 30 minute drying procedure**

*Air Drying System ensures a max dry Air Purge Cycle  
Helps prevent A/C repair comebacks*

**Proprietary anti-misting fluid flow system with charcoal filtration reduces solvent fumes**

*SoundSilence™ technology significantly reduces noise  
Our air flow management system prevents flushing unless flush/purge settings are in the correct position*

**Easy, low-cost maintenance -- 1234yf and R134a compatible**

A/C Flush Machine with Dual-Tank and SoundSilence™ Technology	258-40001
Replacement Filter Kit	258-40020
Motorcraft Spin-on Filter available from Ford/Lincoln Parts Department	FL-1A
Rotunda A/C Flushing Solvent	YN-23

## HIGH SIDE PORT EXTENDER 1234yf and R134a Refrigerants

*Fits deep-seated or standard High Side A/C Service ports*

*Eliminate radiator support removal  
Less component R&R needed  
Quick-connect*

R134a High Side Port Extender	258-90003
1234yf High Side Port Extender	258-90007

## PROFESSIONAL GRADE A/C OIL AND DYE INJECTOR 1234yf and R134a Refrigerants

*Large sight glass for accurate measurement*

*Double the injection pressure of standard tools (up to 230 psi)*

*Easy to read oil/dye measurement scales*

*Durable, all-steel construction*

*Large Oil Injector - Includes 5" hose and quick connect coupler for 1234yf and 5" hose and quick connect coupler for R134a*

258-90024

## ULTI-FLEX PRESSURE SPRAY TOOL™ For Use with Motorcraft A/C Odor Abatement Product

*The only way to apply Motorcraft Cooling Coil Coating (YN29)*

*Can be used to spray other automotive fluids*

*Bend to fit any configuration*

*Use with shop air for fast application and powerful cleaning action*

*Durable metal construction with protective sheathing*

Ulti-Flex Pressure Spray Tool 258-62644

NOTE: Order Motorcraft A/C Cooling Coil Coating (part #YN-29) at parts counter. See vehicle A/C odor treatment for details.
