Feature Comparison Chart	604FK	605FK	522C	711	711 Plus
Finds leaks with smoke and dye. UltraTraceUV® deposits UV dye at exact leak location.	✓	✓	✓	✓	✓
Ford Rotunda Approved. Licensed/Patented STAR technology inside.	✓	✓	✓	✓	✓
Will not damage EVAP systems, engine sensors, or void factory warranty.	✓	✓	✓	n/a	✓
Works with shop air or inert gas. 218-522C always delivers nitrogen (N2)	✓	✓	✓	✓	✓
Integrated nitrogen generator always delivers pure nitrogen as pressure source.			✓		
Auto shut-off. Safely prevents fumes exiting EVAP System when machine turns off.	✓	✓	✓	n/a	✓
Approved for Flex-Fuel EVAP testing. Use with Inert Gas Pack or other inert gas.	✓	✓	✓	n/a	✓
Water Separator / Filter. For input pressure gas; protects tester and vehicle.	✓	✓	✓	✓	✓
Variable smoke flow control (manual).		✓		Automatic	Automatic
Indexed / Calibrates for .020" / .040" and can detect leaks of .010"		Indexed	Calibrates	n/a	Calibrates
Pressure decay test.			✓	✓	✓
Variable pressure, designed for turbo/boosted systems.				3-43.5 PSI	3-20 PSI
Follows safety standards per Division 1, 2013 ASME Boiler and Pressure Vessel code.	n/a	n/a	n/a	✓	✓
Pressure relief valve per standard. Meets ASME Standard.				✓	✓
Follows U. S. Department of Labor (OSHA) Pressure Vessel over 15 psi safety standards.	n/a	n/a	n/a	✓	✓
Automatic excessive flow sensing system shut down – no high pressure hose wipe.	n/a	n/a	n/a	✓	✓
Wireless Remote Control.				✓	✓
Integrated Low Pressure (EVAP) Testing and Variable, High Pressure Testing.					✓

*n/a – not applicable to EVAP System Testing
