

Why Hunter customers are investing in new lift racks

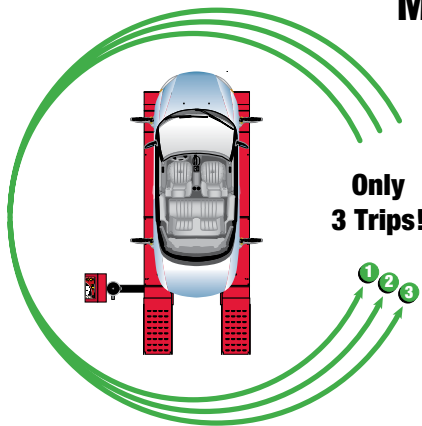

Fully Integrated Alignment (FIA) adds speed, durability and accuracy!

FIA Fully Integrated Alignment

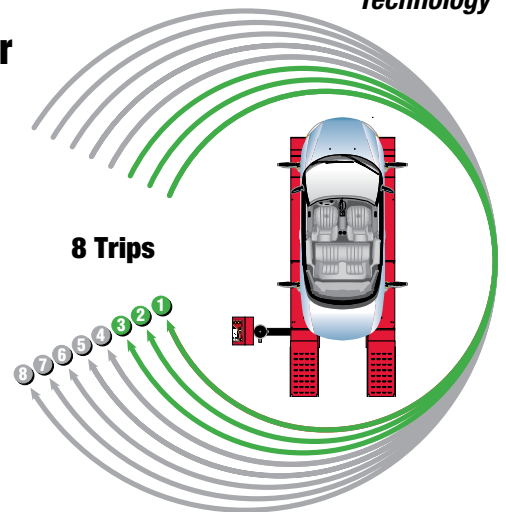

Yesterday's Technology

POWER SLIDE

Minimize trips around the car

- 1 Mount Targets
- 2 Make Adjustments
- 3 Remove Targets
- 4 Jack Vehicle and Compensate Sensors
- 5 Lower Leveling Legs (if equipped)
- 6 Remove Slipplate and Turnplate Pins
- 7 Replace Slipplate and Turnplate Pins
- 8 Raise Leveling Legs (if equipped)

Powerslide Locking System

POWER SLIDE

- ✓ Eliminating struggle with turnplate and slipplate pins
- ✓ Reduces trips around vehicle thus improving efficiencies
- ✓ Self-locking eliminates costly service

Inflation Station

- ✓ System adjusts to desired pressure
- ✓ No hanging air lines
- ✓ Alignment printouts record starting and final pressure

Vehicle challenges are constantly evolving... Hunter stays ahead!

Capacity: 8,000 lbs. (typical)
Wheel base: 161"
Width: 19.5"
Ground clearance: 11"

RL/RM
Up to 20 years old

Capacity: up to 16,000 lbs.
Wheel base: 177.5"
Width: 22.5"
Ground clearance: 12.5"

RMHD
Up to 16 years old

- ✓ Power Slide (optional)
- ✓ Inflation Station (optional)
- ✓ Lights (optional)
- ✓ Movable work step

Capacity: up to 12,000 lbs.
Wheel base: 173"
Width: 24"
Ground clearance: 11"

RX9/RX12
Up to 14 years old

- ✓ Power Slide (optional)
- ✓ Inflation Station (optional)
- ✓ Lights (optional)
- ✓ Movable work step
- ✓ 50% faster descent speed

Capacity: up to 16,000 lbs.
Wheel base: 177.5"
Width: up to 26"
Ground clearance: as low as 9"

Current RX
Up to 5 years old

Capacity: 14,000 lbs. (typical)
Wheel base: 170"
Width: 22.5"

L404 Series
Up to 20 years old

- ✓ Movable work step

Capacity: 14,000 lbs. (typical)
Wheel base: 172.5"
Width: 22.5"

L421 Series
Up to 15 years old

- ✓ Power Slide (optional)
- ✓ Inflation Station (optional)
- ✓ Movable work step

Capacity: 18,000 lbs. (typical)
Wheel base: 211"
Width: 22.5"

L441 Series
Up to 6 years old

- ✓ Power Slide (optional)
- ✓ Inflation Station (optional)
- ✓ Lights (optional)
- ✓ Movable work step
- ✓ Open-front available
- ✓ Integrated console

Capacity: up to 18,000 lbs.
Wheel base: 211"
Width: 26"

Current 4-Post
Up to 1 year old

Swing Air Jacks – proven design and durability

Swing air jacks combine low drive-on height with high lifting capacity.

NEW!

Capacity: 4,000-7,000 lbs.
Reach: 57"
Clearance: 4"
Pads: 2 and 3 positions

Previous jacks

Speed: up to 25% faster

Locked indicators

Capacity: 6,000-9,000 lbs.
Reach: 63"
Clearance: 1.5"
Pads: Locking 3 positions

Current jacks

AlignLights

AlignLights is available for most Hunter alignment lifts as an installed option or can be retrofitted to many previously installed lifts.

NEW!

- ✓ Unmatched visibility for technicians when making adjustments
- ✓ No need for additional electrical cords
- ✓ Automatically switch on when the lift is raised and off when the lift is lowered
