

Save up to 90%

P.O.L. Sorb® organic peat moss absorbents are extremely effective in absorbing oils and hydrocarbons; while offering savings in areas of inventory management, time, labor and waste disposal costs. P.O.L. Sorb products have proven to significantly lower waste disposal costs, freeing up funding for other requirements. The chart below is a depiction of how using P.O.L. Sorb in every day spill clean ups can reduce your overall costs.

55 Gallon Oil Spill

Using Clay is
EXPENSIVE!

You started out with
one barrel but now
you have
FIVE barrels
to dispose of!

CLAY

3.5 bags (55 lbs) of P.O.L. Sorb are required to clean up a 55 gallon spill	
3.5 bags @ \$30	= \$105
3.5 bags of used P.O.L. Sorb fill only 1.2 55 gallon drums	
1.2 drums of used P.O.L. Sorb @ \$95 each (incineration)	= \$114
TOTAL COST using P.O.L. Sorb	= \$219

19.25 bags (770 lbs) of CLAY are required to clean up a 55 gallon spill	
19.25 bags @ \$4	= \$77
19.25 bags of used CLAY fills FIVE 55 gallon drums	
5 drums of used CLAY @ \$500 each (incineration)	= \$2500
TOTAL COST using CLAY	= \$2577

Why pay more than ten times the price with HEAVY clay?
