

ROTUNDA

DESIGN
Non-skid performance.

363-RFC-225

Reusable Floor Mats

The RFC-225 Reusable Floor Mats are made of heavy duty polyester and they have a vinyl backing for a anti-slip performance. The vinyl backing has a double function by preventing any liquids from seeping through onto the customers carpet. They are also equipped with a handle for easy transport from one vehicle to another. Easy to maintain and wash, they are a great alternative to the disposable paper floor mats.

FEATURES

- Available in Red or Black
- Significant cost savings vs. paper mats
- Handle for easy transport
- Anti-slip backing
- Easy to wash and maintain
- Better protection and less damage on vehicles
- Improved CSI scores
- Substantial savings vs. disposable plastic
- Environmentally friendly

COST SAVING
